

MEMORANDUM OF UNDERSTANDING FOR COOPERATION BETWEEN
THE UNIVERSITY OF HAWAI‘I AT HILO
AND
UNIVERSITY OF HAWAI‘I
HAWAI‘I COMMUNITY COLLEGE

The University of Hawai‘i at Hilo (UH Hilo), and University of Hawai‘i Hawai‘i Community College (Hawai‘i CC) (collectively, the “Parties”) agree to cooperate on Natural Science Bachelor of Arts and Associate in Science in Natural Science, based on the principle of reciprocity.

This Memorandum of Understanding (MOU) serves to clarify expectations of each campus to facilitate the successful transfer of students in the Associate in Science (AS) in Natural Science, at Hawai‘i CC to the Bachelor of Arts (BA) in Natural Science at UH Hilo, including specific education courses to prepare students for application into the Master of Arts (MA) in Teaching program. The goals of this partnership are to: (1) use resources at both institutions more efficiently and effectively to focus on transfer issues; (2) establish shared program responsibilities for student recruitment, academic advising and support to make the process of moving from one campus to the next as seamless as possible; and (3) expand student options for college success and curriculum by expanding on-campus services from Hawai‘i CC and UH Hilo.

1. Students who graduate from Hawai‘i CC with the articulated AS degree in Natural Science will be covered under the terms of this agreement. Hawai‘i CC students transferring to UH Hilo without graduating with the articulated AS degree in Natural Science may be required to complete additional coursework for the BA degree at UH Hilo.
2. Requirements for both the AS degree and BA degrees are provided below (appendices I-III). These documents form the basis of this agreement; subsequent changes to the curricular requirements of either program may require revisions to this agreement. Changes in elective courses are not considered modifications.
3. Under the terms of this MOU, UH Hilo will do the following:
 - a. Identify a UH Hilo faculty member(s) who will serve as the faculty advisor to students in the Natural Science program.
4. Under the terms of this MOU, Hawai‘i CC will do the following:

- a. Identify a student services advisor at Hawai'i CC who will partner with a UH Hilo advisor to ensure timely and accurate advising information on pre-admission, admission, degree requirements, and related matters.
 - b. Identify a Hawai'i CC faculty member(s) who will serve as the faculty advisor to students in the Natural Science program and consult with UH Hilo admissions and advising personnel when necessary.
5. Under the terms of this MOU, both Parties will do the following:
- a. Representatives from Hawai'i CC's ASNS program, and UH Hilo's Natural Sciences BA program and the School of Education should meet annually to discuss the program and any potential or planned curricular changes.
 - b. Make efforts to find financial sources for carrying out the agreed to activities on each campus.
 - c. Inform the other Party in a timely manner of identified advisors at the beginning of each Academic Year, and communicate any curriculum or other pertinent types of changes to advisors during the course of the Academic Year.
 - d. Inform the other Party in a timely manner of changes in campus, Department, or Program leadership and point of contact.
6. Nothing shall diminish the full autonomy of either institution, nor will any constraints or financial obligations be imposed by either upon the other in carrying out the MOU.
7. This MOU is in effect for five years and is subject to revision or modification by mutual written agreement. It is also understood that either institution may terminate the MOU at any time by giving written notice at least 6 (six) months in advance to the other Party to minimize impact on students completing their degrees. This MOU shall take effect from the date of the latest signature below.
8. Any notice or request given or made by one Party to the other under this MOU shall be in writing and shall be addressed to the appropriate office as is designated in writing hereinafter:

UNIVERSITY OF HAWAI'I AT HILO

Contact: Ken Hon, Vice Chancellor for Academic Affairs
Division of Academic Affairs

Address: 200 W. Kawili Street
Hilo, HI 96720

Phone: 808-932-7332

2. To earn a Bachelor of Arts degree in Natural Science, students must fulfill the requirements for the major and meet all of the University's other baccalaureate degree requirements. (Please see the Baccalaurate Degree Requirements in this Catalog.)
3. At least **21** semester hours must be earned in courses at the 300- or 400-level for the BA Natural Science, Physics Track.
4. Students wishing to make timely progress toward graduation are urged to pay careful attention to all degree requirements.
5. In addition, when planning a schedule of courses, it is imperative to be aware of course prerequisites and the frequency with which courses are offered. This information is available in the course listings in this Catalog.
6. To ensure progress toward degree completion, students are urged to meet with an advisor each semester before registering.
